

Silverstone 9up Team Time Trial

Friday 15th June 2018

Evening event with access to Silverstone opening up 4:30 to 5pm, sign on from 5pm, warm up access to track from 6pm (unless early as advised on the night), and Hand Cyclists starting off the time trail just before 7pm. Teams released to a programmed schedule – at 1minute intervals from 7:01pm.

Event Categories

Men's Ladies

Vets Mixed Juniors

80 Teams (max – due to daylight)

*Within 2 weeks (to give you all chance to communicate with fellow cyclists and club colleagues etc)....*Details on costs, entry forms & payment / BACS details, outline programme, headlines on the rules for the event, etc will be sent by email to clubs, contacts and team managers with whom we have communicated about Silverstone 9upTTT over the last couple of years. If you do NOT want to receive the notification, or if you have new details, or other people you know need to receive the information or are just interested please email silverstone@bmcc2000.com.

We will also put out a notification on facebook when the details are circulated just in case emails go astray!. We will not be taking any entries until the information is formally circulated, at which point we will again operate on a first come / first paid entry basis until the 80 start slots are filled.

We thank you hugely for everyone's continued support and enthusiasm for this unique (we believe) event. And we look forward to welcoming regulars and new faces alike as we share what we hope will be another successful and fundraising full event at Silverstone.

Charity Update:

We are delighted to share that last year's event raised £5,000 for Hand Cycling Association UK – they invest this directly into equipment to get people into hand cycling. A further £3,500 supported the Alzheimer's Society, and nearly £1,000 went to both the Children's Brain Tumour Foundation and to Medical Detection Dogs in Milton Keynes for their work in ground breaking research that utilises dogs in sensing early onset of a specific range of illnesses.

Wishing everyone happy and safe cycling
